## WHO IS PETER?!

Raffaele Esposito was a legend from Napoli who invented the Margherita Pizza in the 19th Century. It was created in honour of Queen Margherita of Savoy which included, tomato, mozzarella, and basil to mirror the colours of the Italian flag.

This laid the foundation for the modern pizza we serve today. Esposito owned a place in Napoli called 'Pizzeria di Pietro e basta così' (Peter and that's Enough...)

That's PETER to you and me...
